

An easy to use product configurator integrated with SAP Business One.

- Accurately configure custom products
- Access from SAP and outside SAP
- Quickly configure complex products
- Product rules are built into the configuration models
- Use SAP pricing
- Generate accurate BOM's if required
- Reduce errors
- Ensure all products are valid

CIS Configurator is a web-based solution that can be used to manage quotes and orders for in-house sales staff using SAP Business One.

The CIS Web Portal enables users outside of SAP Business One to create Sales Quotes and Sales Orders.

# Create Quotes & Orders

## Sales Quotations

CSRs and Sales Reps create quotes and orders with configurable products based on the price list assigned, using CIS Configurator.

## Sales Orders

Guiding the user through questions and answers CIS Configurator creates accurate BOMs in SAP Business One if required.

## Production Orders

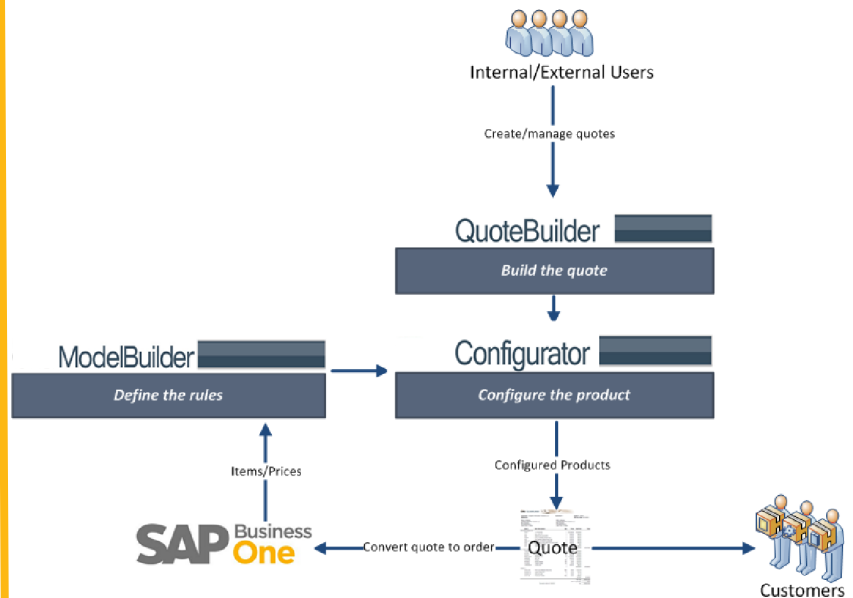

CIS Configurator can be used in a Production Order.

Browser-based applications used to automate the configuration of build-to-order products.

CIS Configurator provides clients with the capability to easily and efficiently quote and order highly customizable and configurable products.

## Create Quotes & Orders online outside of SAP

Sales personnel, Dealers and resellers can access the CIS Web Portal, generating quotes with configured products that can be revised before generating a Sales Order in SAP.
